

APOLLO

Ultrasonic Standard

The Apollo Standard Ultrasonic is the original Ultrasonic contents gauge and comprises a tank mounted transmitter unit and a plug-in receiver unit.

The tank transmitter constantly checks the level in the tank and transmits this to a plug-in receiver unit which displays the level on the easy to read LCD screen.

Benefits

- » Quick & Easy installation with no specialist tools required (fitted in minutes)
- » Supplied with easy to follow step by step instructions and online video
- » Wireless, with up to 200m FM range
